journal of MEMBRANE SCIENCE

Subject index

Alumina, 87
Anion exchange membrane, 199
Aqueous picolines, 163
Aroma compounds, 189
Asymmetric membrane, 65

Battery, 199
Biofunctional membranes, 47

Cascade filtration, 97
Cellulose acetate/acetone, 265
Ceramic membranes, 27
Channel geometry, 135
Composite membranes, 1,199
Concentration polarization, 135, 173
Concentration profile, 125
Conductive polymers, 1
Cross-flow filtration, 153

Demulsification, 231
Dense membrane, 65
Diffusion, 125
Dynamic filtration, 153

Economics, 135
Eicosapentaenoic acid, 209
Elastomeric membranes, 163
Electric current, 249
Electron transfer, 259
Ethene, 217

Facilitated gas transport, 217
Facilitated transport, 13, 209, 231
Familial hypercholesterolemia, 97
Flux coupling, 189
Fullerene, 259

Gas separations, 1, 13, 77
Gel-layer model, 173

Humidity sensor, 199

Laminar viscous flow, 153
LDL-cholesterol removal, 97
Liquid membrane, 209
Liquid membranes, 231

Macrovoid formation, 265
Manometric techniques, 65
Mass transfer, 189
Mass transfer resistances, 13
Membrane-bound enzymes, 47
Membrane morphology, 77
Membrane photoconductance, 259
Membrane preparation and structure, 1, 265, 293
Membrane process, 111
Membrane–protein interactions, 97
Membrane selectivity, 283
Metal complexation, 87
Methanol, 283
Methyl *tert*-butyl ether, 283
Methylcellulose, 125
Microemulsions, 231
Microporous and porous membranes, 265, 293
Mixed matrix membrane, 77
Model edible film, 125
Modules, 135
Multi-component mixtures, 189

Nanofiltration, 87

Olefin permeability, 13
Osmotic-pressure model, 173

Pervaporation, 163, 189, 249, 283
Phase transformation, 27
Polyaniline, 1
Polyelectrolyte gels, 217
Polyethersulfone membrane, 77
Polymer, 259
Poly(phenylene oxide), 283
Polypyrrole, 199
Poly(vinyltrimethylsilane), 65
Pore size distribution, 293
Pore structure evolution, 27
Porous membrane, 259
Process design, 111

1994 Elsevier Science B.V.
SSDI 0376-7388

Reverse osmosis, 111

Silver nitrate, 209
Simulation, 111
Sintering, 27
Sorption isotherm, 125
Spin-labeling, 47

Theory, 173, 265, 293
Thermal and hydrothermal stability, 27
Transport parameter determination, 65

Ultrafiltration, 111, 135, 173, 293
Uphill transport, 209

Water treatment, 231
Water vapor permeability, 125

Zeolite, 77
